[VERY SLOW INTRO: Dm Bb Dm Bb

[Long Pause... Slow, Floating rhythm:]

```
Dm            Bb     Dm                Bb
Somewhere in Heaven wings are taking flight
Gm7           Bb                Dm
Flying over a worldly weight of hatred
Bb              Gm7              Dm
Hanging over a building in the rain
```

[Long Pause...]

```
Dm          Bb     Dm                Bb
You got to Heaven blown across the sky
Gm7                Bb        Dm
Crying out for the angels to help you
   Bb                  Gm7            Dm
To rise up out of the ashes and the flames
```

[Pause]

[Now With heavy rhythm:]

```
Dm                Bb            Dm              Bb
Send me half your angels We're running out of time
Dm               Bb           Gm7               Eb
Send me half your angels I'll send you half of mine
                           Dm
Hope they get there in time

And far below your Heaven hearts are wondering why
Why would anyone hurt Gods children?
How could anyone harm them at all?

Send me half your angels We're running out of time
Send me half your angels I'll send you half of mine
Hope they get there in time
```

SEND ME HALF YOUR ANGELS by Crosby & Nash

And while you're in Heaven sleeping on the wind
Ask your heart to forgive this evil
Ask your soul to forgive us all

Send me half your angels We're running out of time
Send me half your angels I'll send you half of mine

Send me half your angels We're running out of time
Send me half your angels I'll send you half of mine
Hope they got there in time

Half your angels, goodbye
